The screenshot shows the ISO Online Browsing Platform (OBP) interface. At the top, the ISO logo is on the left, and navigation links for 'Sign In', 'Language', 'Help', and 'Search' are on the right. Below the header, a search bar contains the term 'security', and the results are displayed in a list format. The left sidebar shows filters for 'All' (59 results), 'Standards' (0), 'Collections' (0), 'Graphical symbols' (0), 'Terms & Definitions' (59, selected), and 'Country codes (beta)' (0). The main content area shows the first three results, each with a 'Terms & Definitions' icon, the term 'security', a description, the standard number, and available languages.

Three standards development tracks

- Accelerated timeframe
 - 24 months to publication
 - Default timeframe
 - 36 months to publication
 - Extended timeframe
 - 48 months to publication
- The clock starts when NP is approved
 - Missing limit dates means action is needed to avoid cancellation of project
